

COURSE RECORD

Code	BA 224
Name	Macroeconomics
Hour per week	3 (3 + 0)
Credit	3
ECTS	5
Level/Year	Undergraduate/1
Type	Compulsory
Prerequisites	BA 225
Description	This course is designed to examine how economies function in combination and the basic relationships that motivate economists' understanding of what drives macroeconomic variable and how government policy may impact on this context. Topics such as economic growth, tools of monetary, and fiscal policy, major economic institutions, evaluation of economic analysis, functioning of markets will be discussed. Problems of unemployment, inflation will also be stressed throughout the course.
Objectives	Understanding the fundamental concepts and principles of macroeconomics. Analyzing the causes and effects of unemployment and inflation through the use of relevant statistical data. Comparing different economic growth theories in terms of their assumptions and implications. Evaluating the effectiveness of monetary and fiscal policy tools in addressing macroeconomic issues.
Learning Outcomes	<i>By the end of the course, the student will be able to</i> LO1. Explain the current economic phenomenon with existing theory and express their views on contemporary economic issues. LO2. Explain the theoretical background of employment and inflation issues. LO3. Explain contemporary theories of economic growth, evaluate these theories in light of economic performance, and apply one or several of the theories to predict economic performance.
